Portfolio: <https://mercyportfolio.herokuapp.com/>

## Personal Statement

A full-stack graduate from moringa school with a passion for software engineering. I enjoy every step of the development process, from ideation, discussion, collaboration to concept and execution. I am a team player, result-driven and goal-oriented individual.

## Highlighted Software Applications

Mtoto-Frontend Developer

URL: <https://washucode.github.io/MTOTO/>

A web app that measures a child's EI from ages 8-12 and gives feedback to be used by caregivers.

- Implemented frontend for the user landing page, forms, and feedback page.
- Built using Javascript, Bootstrap, Css3, JQuery, and HTML5.

Github-project - Fullstack Developer

URL: <https://irenemercy.github.io/Github-Project/>

This is a website where users may enter a GitHub username into a form to search for the specific user and their repositories, and see names and descriptions of that person's public repositories.

- Implemented a full-stack user web application for the user search form, navbar, user profile detail, repository page, and Github API for the data.
- Built using Angular, Bootstrap, HTML5, CSS3 and typescript.

Project-Review - Fullstack Developer

URL: <https://projoreview.herokuapp.com/>

Project-Review is a platform where users can upload their projects and project detail, the project is to be rated and reviewed by other users. They can also review other people's projects, search for projects and view the overall score.

- Implemented a full-stack user web application for authentication, projects, project details, search form, and project rating and build a profile and project endpoint API.
- Built using Django, Python, Bootstrap, HTML5, CSS3, Postgresql and Postman.

## Technical Skills

Strong: Flask, Django, Bootstrap, CSS3, HTML5, SQL

Experienced: Python, Javascript, Angular, PHP, Adobe Photoshop, Illustrator

## **Personal Skills**

- Good Communication Skills, invest time and energy in delivering clear lines of communication to colleagues so as to deliver projects on time.
- Team player, able to work in a team and collaborate with others.
- Adaptive in different workplaces, I'm flexible and can adapt to changing work conditions.
- Ability to work under pressure, learn fast when required to accomplish a task that I have insufficient knowledge of.
